5:066, SECTION 6(5)	)	

O R D E R

IT IS ORDERED that Green River Electric Corporation ("Green River") shall file the original and six copies of the following information with the Commission, with a copy to all parties of record, within 20 days of the date of this Order. If the information cannot be provided by this date, Green River should submit a motion for an extension of time stating the reason a delay is necessary and include a date by which it will be furnished. Such motion will be considered by the Commission. Green River shall furnish with each response the name of the witness who will be available at the public hearing for responding to questions concerning each item of information requested.

1. State the number of single phase meters which Green River must read annually to comply with 807 KAR 5:006, Section 6(5).

2. State the number of on-site meter readings Green River has taken annually for the years 1985-1990. (Meters which were read more than once annually should be counted as only one meter reading.)

3. (a) State whether Green River has ever read all meters annually.

(b) If Green River has ever read all meters annually, state:

(1) The number of employees required to perform this task.

(2) Whether the employees worked exclusively on this task.

(3) When this action was taken.

(4) Why this action was discontinued.

4. List and explain the changes which have occurred since the Commission's final Order in Case No. 9552<sup>1</sup> supporting the granting of Green River's current application.

5. List and briefly summarize all customer complaints involving meter problems received by Green River from January 1, 1985 to December 31, 1990.

6. State the number of Green River employees currently assigned to read meters.

7. Provide a breakdown of the estimated cost of \$34,000 additional operating expense mentioned on page 3 of the application.

8. Identify the programs which Green River employs to limit unaccounted-for energy losses.
